
ROLE: SQL Server Database Administrator

If you're looking for an opportunity to use your analytical thinking and problem solving skills working with some of the best DBA's in the industry helping to manage a very large estate of SQL Server instances for our mission critical customers, then this could be just the opportunity for you.

We're looking for someone who is:

Passionate about problem solving:

- Working with our customer's engineering teams to support their mission critical SQL Server environments through proactive monitoring and implementation of best practice standards
- Troubleshooting issues across the entire stack – network, hardware, software, SQL Server and applications
- Build and maintain strong client relationships

Intelligent and enthusiastic and is:

- Committed to customer service and going the extra mile to exceed expectations
- Self-aware and keen to continue learning to keep yourself at the forefront of technology
- Able to prioritise tasks, work independently and communicate fluently
- Able to demonstrate great attention to detail with impeccable spelling, grammar and punctuation

Specifically, you'll have:

- At least 1-2+ years' experience in a production DBA role
- Excellent communication skills and strong attention to detail
- Knowledge and experience of:
 - Installing, configuring, administering and tuning SQL Server
 - Troubleshooting
 - Deploying all SQL Server components • Working with a ticketing system/dispatch
- Desirable but not essential:
 - Working towards Microsoft Certification
 - Help Desk experience
 - Degree educated

The details:

Salary range: £25K- £35K depending on experience plus on call allowance and many valuable benefits

On-call: £8K per annum paid monthly

Location: Office based, near Reading, Berkshire

You must be eligible to live and work in the UK without sponsorship.

How to apply:

Your CV is important to us but so are the things your CV can't tell us. Please send an up to date CV along with a covering letter, telling us why this is the job for you and why you'd love to work with us. Or phone Ros Bolton on 07884559621 to arrange an informal

chat. **NO AGENCIES PLEASE**
